

# You're Better Than You Know

Edwyn Collins

Haven't you guessed they just couldn't care less  
And don't believe them when they say they do  
They've just got to sell their message to you  
And I'm beginning to doubt  
That there's any way out

But then again I tell you  
You're better than you know  
And given time and encouragement  
You're confidence will grow  
Then turn your back on them  
You're better than you know

So bide your time and maybe you'll find  
That you've nothing but your troubles to lose  
Don't let these words of sound advice be misconstrued  
'Cause I'm beginning to see  
That it's all down to me

I just dropped by to tell you  
You're better than you know  
And given time and encouragement  
You're confidence will grow  
Then turn your back on them  
You're better than you know

You're so much better, you're better than they know

I just dropped by to tell you  
You're better than you know  
And given time and encouragement  
You're confidence will grow  
Then turn your back on them  
You're better than they know

You're so much better, you're better than they know  
You're so much better, you're better than they know  
You're so much better, you're better than they know
