

(Let's) Save the World

Edyta Górniak

No one ever told me that life was gonna be this way
My heart was on fire and it drove my mind insane
Never would have thought that this is what I'm gonna do one day
Face all the demons and finally break the chains

And now all my fears and doubts are gone
I am gonna fight for more
Anything can happen but it won't bring me down
I'm feeling so alive
Finally I'm ready to fight for life
You can try but You can't stop me

I saw the world around and worried it's too late to change
I built myself a shelter trying to ignore this pain
A constant hesitation will it really make a difference
If I just stand up and shout it all out loud

Cause now all my fears and doubts are gone
Now I'm gonna fight for more
Anything can happen but it won't bring me down
I'm feeling so alive
Finally I'm ready and I will fight
You can try but You can't stop me

Like a butterfly
I was everything but strong
Listen to my heart now
And it's just a start
it is just a start

And now all my fears and doubts are gone
Now I gonna save this world
Anything can happen but it won't bring me down
I am feeling so alive
Finally I'm ready and I will fight
You can try, You can try but You can't stop me

All my fears and doubts are gone
And I'm ready to fight for more
Anything can happen but it won't bring me down
I'm feeling so alive
Finally I'm ready and I will fight
You can try but You won't stop me
