

## Baby Let's Make It Real

Eels

This is going pretty good  
I gotta admit, I didn't see it coming  
But everyday since that kiss  
Got me thinking do you wanna  
Do you wanna do this?

Baby, you're a full meal  
The way you make me feel  
It's kind of a big deal  
Baby, let's make it real

I gotta be careful  
Tryna hold onto the past  
Can eliminate your future  
And you know the past, baby  
You know the past, the past never lasts

Baby, you're a full meal  
The way you make me feel  
It's kind of a big deal  
Baby, let's make it real

Girl, bring me joy  
Get those high boots on  
And dance until God hears you  
Don't go against God's plan  
Girl, let it fly  
Ain't no one gonna stop you  
Dance until the earth shakes  
Let the beauty and the men cry

Baby, you're a full meal  
The way you make me feel  
It's kind of a big deal  
Baby, let's make it real  
Baby, let's make it real  
Baby, let's make it real  
Baby, let's make it real  
Let's make it real, baby
