

Beginner's Luck

Eels

All my life I had this funny little feeling
Came and went time and again in all my daily dealings
Call it a deficit, an emptiness inside
Why is true love hard to find, why does true love hide

But now I found you and I know that we would be
So very happy if you could only see
That I was made for you and you were made for me

The road in front of us is long and it is wide
We've got beginner's luck, we've got it on our side
With you I will and well I think I'm qualified
And with beginner's luck we've got to take the ride

I've got a plan you know I've got it all worked out
And all you gotta do is pack your bags and check your doubts
You come around and you will see just what I am
A true love through the worst of times, a true love to the end

So now you found me and you only gotta see
How complementary we could really be
Cos I was made for you and you were made for me

The road in front of us is long and it is wide
We've got beginner's luck, we've got it on our side
We will be stronger if our forces are aligned
And with beginner's luck we've got to take the ride

We'll take the ride as far as anyone can go
We'll pray hand in hand until the toe
I've got it all worked out don't worry about a thing
Just give your hand to me, and here, put on this ring

The road in front of us is long and it is wide
We've got beginner's luck, we've got it on our side
With you I will and well I think I'm qualified
And with beginner's luck we've got to take the ride
