

# Bombs Away

Eels

Nobody listens to the whisperin' fool  
Are you listenin'? I didn't think so  
I've been quiet as church-house mouse  
Tip toeing everywhere I go  
I had enough for being complacent  
I had enough of being a mouse  
I no longer keep my mouth shut  
Bombs away, gonna shake the house

Bombs away, I will be heard  
You better listen cause you just might learn  
Bombs away  
Shriek, holler and shout  
And if you're not ready than you'd better get out now

Cat run away  
You better hope it's a good day  
You don't know how I am  
If it's a bad day there may be no end

Bombs away, I will be heard  
And your opinion's gonna wait it's turn  
Bombs away  
Shriek, holler and shout  
and if you're not ready than you better get out now

Nobody listens to a whisperin' fool  
You're not listenin', I didn't think so  
I've been quiet as church-house mouse  
tip-toeing everywhere I go  
I've had enough of being complacent  
I've had enough of being a mouse  
I no longer keep my mouth shut  
Bombs away  
Gonna shake the house

Baby do go better watch your back  
A masterpiece of horror 'bout to be unleashed Jack  
A dog not barking ain't no dog at all  
Bombs away  
Take cover the walls are gonna fall

Nobody listens to the whisperin fool  
Are you listening? I know that you are  
I've been quiet as church-house mouse  
Tip-toeing everywhere I go  
I've had enough of being complacent  
I had enough of being a mouse  
I no longer keep my mouth shut  
Bombs away, gonna rattle the house

Bombs away  
I will be heard  
You better listen cause you just might learn  
Bombs away, shriek, holler and shout  
And if you're not ready than you better get out now
