

Haunted Hero

Eels

Guys, it's okay
I know you're not leaving
You can stay
I didn't become a hero by not going through some shit
It comes with the dinner as they say

Just another haunted hero
Ghosts in my head
Chills in my heart
You don't know it but you need me
A flashlight in the dark

And I'll get you through the night
You just hold on good and tight
And you'll see another day
You're gonna be alright
It's just a night
The mission's underway

Listen to me
I'm not blowin' smoke
I know of what I speak
One day isn't a life
It's just a day
You'll see
You gotta go when you gotta go
But you gotta know it's not now
There's a place with your face down the road
You gotta get to somehow
