

## In My Younger Days

Eels

In my younger days  
This wouldn't have been so hard  
I would've just shrugged it off  
But now it's tough  
I'm not so rough  
I've got a little ways to go  
It's not over yet, I know  
But it feels  
Not so far away

In my younger days  
This still would've knocked me down  
But I would've just bounced right back, you know  
Now I'm a statistic  
But I'm not fatalistic  
I'm not yet resigned to fate  
And I'm not gonna be ruled by hate  
But it's strong  
And it's filling up my days

In my younger days  
I would've just chalked it up  
As part of my ongoing education  
But I've had enough  
Been through some stuff  
And I don't need any more misery  
To teach me what I should be  
I just need you back
