

# Lonely Lockdown Hurricane

Eels

That wind a-blowin'  
It's getting strong  
The rain a'fallin'  
Been falling too long

The pressure in the clouds has changed  
Death rattles our window panes  
Honey, we're in a lockdown hurricane

They tried to warn us  
I didn't care  
Said don't be stupid  
Get out of there

And now I know it's much too late  
Who will discover the remains?  
Honey we're in a lockdown hurricane

Don't you see it?  
We're goddamn fools  
We always had to break the rules

That wind a-blowin'  
It's getting strong  
The rain a'fallin'  
Been falling too long

The pressure in the house has changed  
Death rattles our window panes  
Honey, we're in a lockdown hurricane
