Don't got a lot of time Don't give a damn Don't tell me what to do I am the man

If there's a God up there Something above God, shine your light down here Shine on the love

Love of the loveless Love of the loveless

Don't have too many friends Never felt at home Always been my own man Pretty much alone

I know how to get through And when push comes to shove I got something that you need I got the love

Love of the loveless
Love of the loveless
The love of the loveless

All around you people walking Empty hearts and voices talking Looking for and finding Nothing

Don't got a lot of time Don't really care Not selling anything Buyer beware

If there's a God up there Something above God, shine your light down here Shine on the love

Love of the loveless
Love of the loveless
The love of the loveless

Don't got a lot of time Don't give a damn Don't tell me what to do I am the man

Love of the loveless
Love of the loveless
The love of the loveless
