

# Stick Together

Eels

Thwarted again missing in the crowd  
A friendly voice calling clear and loud  
My big mistake, thinking that I knew  
How to get by independent of you

The imatures, they have the chance  
Quick to forget who brought 'em to the dance  
Loyalty is paramount to me  
It's very clear we make a winning team

We gotta stick together  
That's right, we gotta stick together, that's right

Stay confident, doin' I'm okay  
With anything you may do or you may say  
We're always in quite good company  
If I'm with you and you know you are with me

It's me and you, taking all now our comers  
Watching it fall and nothing could be funner  
The challenges only make us stronger  
Outlast 'em all, forever maybe longer

We gotta stick together  
That's right, we gotta stick together, that's right  
We gotta stick together  
That's right, we gotta stick together, that's right

Battle stations, gotta made the guns now  
Everywhere you look and now they try to take us down

We gotta stick together  
That's right, we gotta stick together, that's right  
We gotta stick together

Honorable the only thing to do  
You count on me 'cause I gotta count on you  
I'm gonna pay up everything I owe  
You just get ready, this is the real show

We gotta stick together  
That's right, we gotta stick together, that's right  
We gotta stick together  
That's right, we gotta stick together, that's right

Let's stick together
