To Dig It

Eels

Hello, this is Koool G Murder.
Okay, so that was the new Eels album.
I trust you enjoyed it, and are busy calling
and texting your friends to tell them what
wonderful and life enhancing experiencing
listening to it is.
But hold on there, since you made the
smart choice to purchase a deluxe edition,
more of your life is about to be enhanced.
Please sit back now, and enjoy some
bonus Eels material.
I think you're going to dig it.
