In this world of shit
Baby you are it
A little light that shines all over
Must take over
And see us through the night

Daddy was a troubled genius
Mama was a real good egg
Why don't we just get together
For whatever
And see if it's alright

I spent so many days

Just staring at the haze

And i think that that's a book

That i don't have to write again

Now when i rise i shine
I've got you on my mind
And the question isn't if
The question is merely when

Baby, i confess
I am quite a mess
So let's get married and
Make some people
More than equal
In this world of shit

I will make a pledge
To get down off the ledge
You and i belong together
And forever we will have
Our love
