

Playboy Love

Eem Triplin

I know
Yeah

All these feelings that I got with you
Got me missing, hate the feeling when I'm not with you
Making a living with this music want a pot with you
Take a bullet if they shooting they can not hit you
Hit a lick and do the dash if the cops come through
This some playboy love, miss the kisses and the hugs
I was getting got me missing all the times when would argue
You was trippin' got me missing all the times
Sometimes I feel like loving is a crime but it's fine

Yeah, oh me oh my, I'm calling up the guy like why
My heart been broken but it's different this time
Like why you up and leave without giving me a sign
Really wish I could rewind, and go way back to those times
Never seen a nigga so blind
20-20 eyesight but I swear I never seen the signs
I swear I never seen the signs
Swear I'm done with all the stressing, never knew how I could miss the message
Swear to God I miss when we be texting
You told me all your insecurities and all the lessons
Just for us to never speak again girl I don't get it
Swear I'm done with all the stressing, never knew how I could miss the message
Swear to God I miss when we be texting
You told me all your insecurities and all the lessons
Just for us to never speak again girl I don't get it

All these feelings that I got with you
Got me missing, hate the feeling when I'm not with you
