

## Full Moon

## Efterklang

You're always a follow  
we will cross that line and get away  
to the hope that follows  
for the dream that swears on better days

Can you hear them calling ?  
Can you hear them falling now ?  
Can you hear them coming ?  
Can you hear them falling now ?  
Can you hear them coming ?  
Can you hear them falling out ?

There is nowhere to escape  
there is nowhere  
there isn't anywhere  
there is nowhere to escape  
there is nowhere  
there isn't anywhere

There is nowhere to escape  
only rythms that will keep you awake

Can you hear them calling ?  
Can you hear them falling now ?  
Can you hear them coming ?  
Can you hear them falling out ?

I can hear it  
I can hear them calling out  
for the river  
I can hear it all  
I can hear it  
I can hear them calling out  
for the rythm  
I can hear it all
