

## Autumn Moods

Eggnoise

a leaf that falls in autumn mood  
(at)tempting to cut the sky in two  
bearing the trace of bloodshed

a room too crowded for suicide  
(in)tended tears from someone's eyes  
as clear as the dew at sunset

(these would only wash out from my eyes  
so I let them take their time  
these would only burn into my heart  
the colors of fire)

a full-grown man turned to a child  
as he would stand by a woman's side  
shy enough to be noticed

„líp než svatí mourovatí ví  
jak cupitat po špičkách  
víc než světem unavený  
a nahý jak dým

a ti svatí jen hlavou kroutí“

and all the dreams and all the crimes  
as it would seem walk side by side  
as the earth grows old and tired
