

# Change

Egypt Central

Conflicted  
Can you forgive and forget  
You can't fix it  
When you live in regret  
Are you afflicted  
Or does it burn inside  
Carpe diem

Say what you have to say  
Before times slips away  
Make the change

Don't deny it  
I know your terrified of yourself  
You can't fight it  
I know your screaming for help  
You chase riots  
But your running blind  
Carpe diem

Say what you have to say  
Before times slips away  
Make the change

Say what you have to say  
Before times slips away  
Make the change

Say what you have to say  
Before time slips away  
Make the change

Say what you have to say  
Before times slips away  
Make the change

Say what you have to say  
Before times slips away  
Make the change

Don't deny it  
I know your terrified of yourself  
You can't fight it  
I know your screaming for help  
You chase riots  
But your running blind
