

Dead Machine

Egypt Central

I can't find the pattern
The link in corrupted lines
At the heart of the matter
The system has failed inside

I'm left disconnected
The circle and a cycle spin
But the memories affected
They cripple the life within

I, I can't fix how I'm wired
I, I am sick with the virus
Deep in the circuits
Like a dead machine

Cracks in the framework
Trace back to the crashing core
When I meet the maker
They have so much to answer for

I, I can't fix how I'm wired
I, I am sick with the virus
Deep in the circuits
Like a dead machine

Why can't I explain the way I am?
Why can't I explain the way I am?
Why can't I explain the way I am?
Why can't I explain the way I am?

Why can't I explain the way I am?
Why can't I explain the way I am?
Why can't I explain the way I am?
Why can't I explain?

I, I can't fix how I'm wired
I, I am sick with the virus
Deep in the circuits
Like a dead machine

I, I can't fix how I'm wired
I, I am sick with the virus
Deep in the circuits
Like a dead machine
