

Already Numb

Egzod

I can see the warning signs
I try to hide it so I tell you that I'm fine
Maybe I'm going insane
Avoiding shelter just to stand out in the rain

I can see the warning signs
Now I'm starting to think I'm out of time
And it makes me terrified
That I couldn't give myself out if I tried
If I tried

I still hold you
But I feel nothing
Hurt me so I know it's real
Don't wait for me
You'll break slowly
The damage is already done
I'm already numb

I'm already
I'm already numb
I'm already

Already numb, already numb
Already numb, already numb
Already numb, already numb
Already numb, I'm already numb
Already numb, already numb
Already numb, already numb
Already numb, already numb
Already numb

Hopeless every time
I just need a reason to survive
The dark is blinding
The water's rising
And you can't find me

I still hold you
But I feel nothing
Hurt me so I know it's real
Don't wait for me
You'll break slowly
The damage is already done
I'm already numb

I'm already numb
I'm already

Already numb, already numb
Already numb, I'm already numb
Already numb, already numb
Already numb, I'm already numb
Already numb
