

Isolation

Egzod

We gotta stay strong, with what we're going through
Yeah we bit off more than we could chew
So hard to swallow the truth
But you know we gotta do what they tell us to

I keep praying this will pass by
Darkest nights afraid to live life
We just need some help; a new life
So what the hell we gonna do?

The world's on fire
But we got a nice view from our living room
Not sick, but I'm tired
The devil may loom in the impending doom

I can't take the suffocation
Ashes of a broken nation
Burning up the population
Rest in peace in isolation

Rest in peace in isolation
Rest in peace in isolation

It won't take long, before we get a clue
A threat goes on that we can't undo
Oh God we're the hollow youth
Gotta show 'em what we got so follow through

I keep praying this will pass by
Darkest nights afraid to live life
We just need some help; a new life
So what the hell we gonna do?

The world's on fire
But we got a nice view from our living room
Not sick, but I'm tired
The devil may loom in the impending doom

I can't take the suffocation
Ashes of a broken nation
Burning up the population
Rest in peace in isolation

Go!
Rest in peace in isolation
Rest in peace in isolation
