

It'll Always Be Us

Egzod

Who's that standing in the limelight
Ghost face sound familiar turn a blind eye
Rotate vision clearer now I see why
I'm stuck in the water but my mouth dry

Can't you see me reaching for your touch
Breathing bleeding more than love and lust

Oh oh
I'm just guided by the flow
Oh oh
To your land my heart will float

Cause it will always be us
Yeah it will always be us

Who's that standing in the limelight
Ghost face sound familiar I got blind eyes
Rotate vision clearer now I see why
I'm stuck in the water but my mouth dry
Pick up where we started from the sideline
Now we take shots making buckets like your top
Five
Had to step with the curry on LeBron's Kyrie
Nets keep me worried like you'll bullseye me
Catch me being buried by my own bride
Tarantino when we lock eyes
88 it's long rise
To the cape 495
Ah
You should know by now
Home ain't home without
And I can't [?] without

Can't you see me reaching for your touch
Breathing bleeding more than love and lust

Oh oh
I'm just guided by the flow
Oh oh
To your land my heart will float

Cause it will always be us
Yeah it will always be us
