

Mayday

Egzod

Scared of what I'm losing
But I'm tired right now (But I'm tired right now)
Left you marks and bruises
But it's over now (But it's over now)

Letting you get close again
You're a ticking bomb (You're a ticking bomb)
You left me in the dying
I'm feeling cold and numb (Feeling cold and numb)

We are running out of air (Out of air)
I'm calling a mayday, calling a mayday (Calling a mayday, calling a mayday)
Here's that hope that's nothings left (Nothings left)
There must be a better way (Must be a better way)
I'm calling a mayday

A call from the heart

A call from the heart
A call from the heart

You're running on my downfall
All I do is cry (All I do is cry)
Though you pick up on my pieces
You don't even try (You don't even try)

Now letting you be close again
Still a ticking bomb (Still a ticking bomb)
You left me in the bleed out
Like I'm healing wound (Like I'm healing wound)

We are running out of air (Out of air)
I'm calling a mayday, calling a mayday (Calling a mayday, calling a mayday)
Here's that hope that's nothings left (Nothings left)
There must be a better way (Must be a better way)
I'm calling a mayday
I'm calling a mayday

A call from the heart

A call from the heart
A call from the heart

(From the heart...)
