

My Stranger

Egzod

Call me young and call me reckless
Let a stranger close to me
Just one look and I knew better
Promised sights I've never seen

Once a mistake, twice just foolish
Comes to you, I'm so naïve
Whatever you say I'll do it
Moth to flame, you take the lead

I know my mama taught me better
Cracked beneath your gentle pressure
Made me beg like I have never
You're no good for me, my stranger

Neon lights and sticky counters
In a haze we disappear
I disregard the ringing warnings
While you whisper in my ear

Fly across the world in secret
Made a paradise with me
But reality keeps rolling
Counting down 'til when you leave

Once a mistake, twice just foolish
Comes to you, I'm so naïve
Whatever you say I'll do it
Moth to flame, you take the lead

I know my mama taught me better
Cracked beneath your gentle pressure
Made me beg like I have never
You're no good for me, my stranger

You're no good for me, my stranger
You're no good for me, my stranger
You're no good for me, my stranger
You're no good
You're no good for me, my stranger
