

No Rival

Egzod

Here and now you're coming up to me
'Fore I'm lighting up the sky
Feel the ground shaking underneath
Trying to take me alive

Oh-oh-ohhh
Get ready for the fallout
Oh-oh-ohhh
Can't stop me now

I got no rival
I'ma find my way
Through the blood and pain
Game of survival
Any time or place
Watch 'em run away
I got no
I'll be standing on my own
Never gonna take my thrown
I got no rival
Watch 'em run away
I got no, no, no, I got no, no, no rival

No rival
No rival

Tell them now what you gon' do
We can do this face to face
Reckoning is coming in soon
Doesn't matter what you say

Trying to tell you listen to the moment
Can't take mine, 'cause I own it
Don't you know that I'm locked and I'm loaded
You're out of focus

Oh-oh-ohhh
Get ready for the fallout
Oh-oh-ohhh
Can't stop me now

I got no rival
I'ma find my way
Through the blood and pain
Game of survival
Any time or place
Watch 'em run away
I got no
I'll be standing on my own
Never gonna take my thrown
I got no rival
Watch 'em run away
I got no, no, no, I got no, no, no rival

No rival
I got no, no, no, I got no, no, no rival
No rival
