

One by one
Left them buried in the burning sun
Knew that it was now or never
"They won't treat you better"
On the run
Feeling heavy as a loaded gun
Cracking under all the pressure
I ignited

Shots of light
Rained down and filled my eyes
I saw the sum of my life was begging and stalling
Black and white
Changing the state of mind
That kept me losing myself, forgiving and falling
I fly as a phoenix tonight

I fly as a phoenix tonight
Oh oh oh

Got fire in my feathers
Found my form
I'll make it through the raging storm
Time for taking back the power letting it go
Redirected feeding my soul and
I'm not done
Ain't going anywhere but up
And if you try to shoot me down with hate then I know
The jealousy has taken it's hold

Shots of light
Rained down and filled my eyes
I saw the sum of my life was begging and stalling (Oooo oh oh)
Black and white
Changing the state of mind
That kept me losing myself, forgiving and falling (Ooh)
I fly as a phoenix tonight

I fly as a phoenix tonight
Got fire in my feathers
I fly as a phoenix tonight
Oh oh oh

Got fire in my feathers
Got fire in my feathers
Ooh Ooh
Ooh Oh
Ooo Ooo
