

Reserve

Egzod

How do we know when we have reached our limit?
Rattling up, firing from all pistons

And it seems like you can't go there
And it seems like you can't focus - focus
When you're running on empty
And it seems like you can't breathe
Don't got no more energy
I'll be there when it runs out

I'll be there when it runs out
I'm your reserve

I'll be there when it runs out
I'm your reserve

I'll be there when it runs out
I'm your reserve

I'll be there when it runs out
I'm your reserve

How could you know, telling me what you're made of?
Saying it loud, but you still have not proved me wrong
It takes more than some gas to start a blaze
You need something within you to ignite the flame
Come on give it to me now

I'll be there when it runs out
I'll be there when it runs out
I'll be there when it runs out
I'll be there when it runs out

And it seems like you can't go there
And it seems like you can't focus - focus
When you're running on empty
And it seems like you can't breathe
Don't got no more energy
I'll be there when it runs out

I'll be there when it runs out
I'm your reserve

I'll be there when it runs out
I'm your reserve

I'll be there when it runs out
I'm your reserve

I'll be there when it runs out
I'm your reserve
