

# Wildfire

Egzod

I might be tired of the stones they throw  
Picking up scars and I hold them close  
They shot me down but I got this far  
Shine a light on me when my heart goes dark

Cause I'll never lose faith now  
I'm in the flames of an angel  
Fire fire burn  
Fire fire

And even if I'm broken  
I'm cold but my blood's not frozen  
Fire fire burn  
I'm dying to tell you I'm wildfire

I beat my fears but I lost my dreams  
They say this fight isn't what it seems  
Shoot 'em all down when my demons rise  
Couldn't win, so I joined their side  
Breathe it in, til the day I die

And even if I'm broken  
I'm cold but my blood's not frozen  
Fire fire burn  
I'm dying to tell you I'm wildfire
