

# Godhead: Final Temple

Eidola

A house in two, a whole  
God give me strength to mend my soul  
To know of my purpose  
I'll breathe 'til my time comes  
Momento Vivere

There's a war in my veins  
Between the man that I've become  
And the nature of being

Brick by brick I'll build it up  
Until the veil comes down  
And all we know is love  
It's never over  
All of eternity will lapse

Angels at the gates  
The perseverance of the holiest saints  
Stand up, it's time to rise

There's so much life waiting for you on the other side  
There's so much light for you to see clearly  
When you open, open the door  
When you open, open the door

There's a peace within my bones  
Where the pain that I have held  
Is quiet and fleeting

Line by line I'll be enough  
Until the walls come down  
And all we know is trust  
It's never over  
All of eternity will lapse

Incarnate from formless thought  
Aggregate of particles  
My body fails but I won't stop  
I'll keep running running running until I fall

There's so much life waiting for you on the other side  
There's so much light for you to see clearly  
When you open, open the door  
When you open, open the door

Pater noster  
Qui es in caelis  
Sanctificetur nomen tuum  
Adveniat regnum tuum  
Fiat voluntas tua  
Sicut in caelo et in terra  
Panem nostrum quotidianum da nobis hodie  
Et dimitte nobis debita nostra sicut et nos dimittimus debitoribus nostris  
Et ne nos inducas in tentationem  
Sed libera nos a malo  
Amen

Check for the dead  
I need someone to show me how  
Resurrect, ascend  
To live when all is lost  
Miraculous deliverance  
From all the harm I caused  
Merciful ignorance  
A blissful state of decadence

There's so much life waiting for you on the other side  
There's so much light for you to see clearly  
When you open, open the door  
When you open, open the door  
When you open, open the door  
When you open, open the door
