

A Long Way Home

Eighteen Visions

Can someone save me
From this hell I've made?
Can someone save me
Before it's too...

Late nights
Have driven me insane
From you, I
Feel so far away

I'm all alone now
In this hell I've made
I'm all alone now
I think it's too...

Late nights have
Driven me insane
From you, I
Feel so far away

Late nights have
Driven me insane
From you, I
Feel so far away
Feel so far away!

Can you tear me away from this, I said
Can you tear me away?
Can you tear me away from this, I said
Can you tear me away?
Can you tear me away from this, I said
Can you tear me away?

Can someone save me
From this hell I've made?
Can someone save me
Before it's too...

Late nights have
Driven me insane
From you, I
Feel so far away

Late nights have
Driven me insane
From you, I
Feel so far away
I feel so far away!
