

Fading Memory

Eilen Jewell

I'll never love like I did before
Don't call my name no more
I've gone and closed the door
So don't call my name no more

If you said you're sorry now
It wouldn't matter anyhow
I ain't never gonna come around
And it won't matter anyhow

[Chorus]

I'll take back all those years when I go
They mean nothing to you I know
I'll take back those years when I go

They will be all my own

I've got places I'd rather be
And you're a fading memory
So don't try to comfort me
You're a fading memory

[Chorus]

I'll take back all those years when I go
They mean nothing to you I know
I'll take back those years when I go
They will be all my own
