

You Know My Love

Eilen Jewell

No time, has passed
And months has gone
But this love, in my heart
Has lingered on

But when I gets worried
I sneak away and cry

You know my love
You know my love
You know my love
Has never died

You're gonna try anything to pacify your mind
You're even gettin' married tryin' to have a good time
But all you'll do, you will never rest
You're gonna spend your life full of loneliness

And when you're down and out
You'll need a home
You're gonna need, a friend
And find her gone

But when I, get worried
I sneak away and cry

You know my love
You know my love
You know my love
Has never died

But when I get worried
I sneak away and cry

You know my love
You know my love
You know my love
Has never died
