Brightest Fire

Eisley

Brightest fire
I feel so blue
Underwater
In my solitude
In love with you

Weightless enchanting
You hold me safe into the earth
And now I'm hiding out
Fighting for the world not to rip it out
You take an ordinary day
And now it's bright and full
Just like you

When the sun goes
Down down down down down
I always hope that it will drown drown
It's unsinkable
(Just like my love)
Non-submersible
(One day I'll pull you down)

Darling, my champion
Tired of chasing
Your light just to lose you
On the horizon
Just pull through

When the sun goes
Down down down down down
I always hope that it will drown drown
It's unsinkable
(Just like my love)
Non-submersible
(One day I'll pull you down)

Feeling uncontrolled
(You want me to be)
Weightless sinking stone
(You won't give up on me)
Break the curse immerse
(You need to set me free)
One day I'll pull you down
(I won't give up)
One day you'll sink and drown
(I won't give up)
I am finding out

When the sun goes
Down down down down down
I always hope that it will drown drown
It's unsinkable
(Just like my love)
Non-submersible
(One day I'll pull you down)
