

Deep Space

Eisley

We wake, with the warmth on our shoulders, Brilliant invention,
by you in place of sunlight, and I count it such a blessing, I
know I'm lucky to be lost in space, with love, With love

Lost out in space you'll never lose me
Lost out in space you'll never lose me
Lost out in space you'll never lose me
Lost out in space you'll never lose me

We knew when we stepped foot on that air ship, we would be sayi
ng farewell to green and and blue and gold for always, and perh
aps a tear slipped down sideways, but no regrets we say and we
mean it as the fire burns, and we skyrocket home.

Yeah, yeah, yeah, yeah yeah yeah

Lost out in space you'll never lose me
Lost out in space you'll never lose me
Lost out in space you'll never lose me
Lost out in space you'll never lose me

So here we are were lifting off, and I can see the falling clou
ds, so brace yourself and breathe love, breathe breathe breathe
love, The roaring of our golden ship, the calling of our black
home, it quickens our hearts to explode like engines, So reach
for my hand, We have reached deep space.

Lost out in space you'll never lose me
Lost out in space you'll never lose me
Lost out in space you'll never lose me
Oh, Lost out in space you'll never lose me
Lost out in space you'll never lose me
Oh, Lost out in space you'll never lose me
