

Louder Than a Lion

Eisley

Honey, baby, sleep tight, sleep tight
Baby, precious, those bugs won't bite

Cause I'm louder than a lion
My hands wipe out the ghosts
I'm brighter than a diamond
My light will shine the most

We fall backwards faster than the speed of sound
If you want to fly we're able
If you want to flee I'm stable
I'll stand and fight when you're out

We can't stay in the moment
Don't hold your breath too long
Try my best not to hurt you
I won't squeeze your hand too tight

Lovely, let me be still tonight
Shadows circling, your eyes won't shine

Cause I'm louder than a lion
My hands wipe out the ghosts
I'm brighter than a diamond
My light will shine the most

We can't stay in the moment
Don't hold your breath too long
Try my best not to hurt you
I won't squeeze your hand too tight
I can't tell if you hear this
Just blink once if you care
I can see my reflection
In the palm lines of your hair
