When You Fall

Eisley

Grace, you've got soul
Brains and beauty
You don't know it at all
And you're, you're fierce and lovely
You've got that fire even though you're small

And I will be there when you fall
Yes I will be there when you fall

Take a little time now
Please slow down now
I want to freeze this all
And bless the day you came here
One came fast and the other brought snow

And I will be there when you fall
Yes I will be there when you fall

You cast a wicked spell
On my heart and my health
I'm dancing in your place
You just want more
But somehow you give it back to me
One hundred times I've seen
Your eyes light up
At songs I sing
I'll kiss your face

A classic face
Your mind is brilliant and your tongue is sharp
I fought a thousand demons
To be worthy of you
Just don't break my heart

And I will be there when you fall
Yes I will be there when you fall

You cast a wicked spell
On my heart and my health
I'm dancing in your place
You just want more
But somehow you give it back to me
One hundred times I've seen
Your eyes light up
At songs I sing

When you fall, fall
When you fall
When you fall, fall
When you fall

When I'm not there with you
Know I'll follow and be there when you fall
