

Blame

Ekali

You say that I'm not the reason
The reason for you to stay
Sometimes you got to believe it
Believe I'm not causing shame
Never thought I'd hear you say
I'd be replaced when you need your space
Every time I hear your name
It ain't the same you changed your ways

Never thought I'd hear you say
I'd be replaced when you need your space
Every time I hear your name
It ain't the same you changed your ways
