

# Hard To Say Goodbye

Ekali

I don't know why I give into you  
This hurts too much  
Every part of me just wants to run  
But I can't, you know

So I'll stay right here  
Just for one more night  
I tell myself I'm fine here with you  
Just for one more night  
You make it hard to say goodbye

You make it hard to say goodbye  
And I don't wanna say goodbye  
You make it hard to say goodbye

I tell myself I'm fine here with you  
Just for one more night  
You make it hard to say goodbye

So let's give in to what we know this is  
You hold me back, yeah  
And hate when I know, that I know that it's wrong  
But I can't stop that, yeah

So I'll stay right here  
Just for one more night (just for one more night)  
I tell myself I'm fine here with you (I tell myself I'm fine here with you)  
Just for one more night (just for one more night)  
You make it hard to say goodbye

You make it hard to say goodbye  
And I don't wanna say goodbye  
You make it hard to say goodbye

I tell myself I'm fine here with you  
Just for one more night  
You make it hard to say goodbye

You make it hard to say goodbye  
And I don't wanna say goodbye  
You make it hard to say goodbye
