

Oh she doesn't matter  
You should just look past her  
I had to do same  
She makes my heart beat faster  
When I'm looking at her  
I don't even know her name  
Wait it's  
Bella bella  
Bella bella

I didn't see  
And I've tried  
Not listening  
To what they said to me  
I just have a bad memory  
I just don't like remembering  
And you just love pretending  
I just don't like remembering  
And you just love pretending

Oh she doesn't matter  
You should just look past her  
I had to do the same  
She makes my heart beat faster  
When I'm looking at her  
I don't even know her name  
Wait it's  
Bella bella  
Bella bella  
Bella bella  
Bella bella

There she goes  
Far but close  
Does she know  
That I'm right here

There she goes  
So far but close  
Does she know  
That I'm right here

Oh she doesn't matter  
You should just look past her  
I had to do same  
She makes my heart beat faster  
When I'm looking at her  
I don't even know her name  
Wait it's  
Bella bella  
Bella bella  
Bella bella  
Bella bella
