

Let's close our eyes and go slow  
Am I good? I don't know  
You took me out, we went home  
I should've never left Chicago

We could keep the lights on, I like when they're off  
So I can only see your eyes when you're on top  
Of me

Ooh  
Ooh

You make me feel things I can't see  
There's nowhere else I wanna be  
I think I found her finally  
I hope you feel this way about me

Ooh  
Ooh

Let's close our eyes and go slow  
Am I good? I don't know  
You took me out, we went home  
I should've never left Chicago

I should've never left Chicago  
I should've never left Chicago
