

Desire

EKKSTACY

Tell me the things I wanna hear
Don't overwhelm me
Don't fill my heart with fear
Please tell me the things I wanna hear
Don't overwhelm me
Don't fill my heart with fear

Gaze into your eyes, I put my fingers through your hair
Whisper in my ear just to remind that you there
Tell me that you love me, girl, just tell me that you care
I'll give you all my soul until there's none left I can spare
See it in your eyes, see it in your face
You don't really want me, you think that I'm a disgrace
But don't tell me the truth even if that is the case
Starin' at the stars, I feel so empty, outer space

Please tell me the things I wanna hear
Don't overwhelm me
Don't fill my heart with fear
Please tell me the things I wanna hear
Don't overwhelm me
Don't fill my heart with fear
