

# keep my head down

EKKSTACY

You don't have to worry  
I can do that for my self  
I sit and I smoke when it's early  
Watch the sun cover the hill  
I was young once I, miss it so much  
Where'd that go?  
I have all these friends  
But there's so much of me I don't show

Keep my head down  
Keep my head down  
When I'm walking

Keep my head down  
Keep my head down  
When I'm walking

I won't stop saying  
Things will be better soon  
Put my head out the window  
I don't have time to be blue  
We've all smiled once I  
Try to keep that memory  
I've been pushed and pulled  
There's still so much that I don't see

Keep my head down  
Keep my head down  
When I'm walking

Keep my head down  
Keep my head down  
When I'm walking
