

Hope I don't fall  
All I really want is love  
I can see in her eye  
Her eye, her eye  
We won't last long  
Hope I don't fall  
All I really want is love  
I can see in her eye  
Her eye, her eye  
We won't last long

I can't deal with uncertainty  
All these girls, they've been hurting me  
Hope you know one is all I need  
All they give me's insanity  
All they give me's insanity  
All they give me's anxiety  
Wait I can't breathe  
I think you'll be the death of me

Hope I don't fall  
All I really want is love  
I can see in her eye  
Her eye, her eye  
We won't last long  
Hope I don't fall  
All I really want is love  
I can see in her eye  
Her eye, her eye  
We won't last long

I can't deal with uncertainty  
All these girls, they've been hurting me  
Hope you know one is all I need  
All they give me's insanity  
All they give me's insanity  
All they give me's anxiety  
Wait I can't breathe  
I think you'll be the death of me
