EKKSTACY

I keep falling down  
I won't make a sound  
I missed your calls  
And your messages  
Missed all your calls  
And all your messages

Ooh-ah

Your eyes don't look the same  
They just wander away

I keep falling down  
I won't make a sound  
I missed your calls  
And your messages  
Missed all your calls  
And all your messages

Your eyes don't look the same  
They just wander away
