

# Bitch

Ektomorf

You  
Is this what you wanna hear?  
Is this what you wanna see?  
Well, you can have it all  
Yes, I lied  
Yes, I lied to you  
'Cause you lied to me  
What the hell you want?  
Fuck you, fuck you  
You're not laughing anymore  
Why everyone call you a whore?  
Do you still like the game?  
You know what's right  
No, you can't have my life  
Fuck off, I leave you behind  
You fucking bitch

Bitch  
You're a bitch, fuck you  
Your life, your lies  
You're sick, I dump you  
Bitch  
You're a bitch, fuck you  
Your life, your lies  
You're sick, I dump you

You  
You're fat in the heart  
You steal the air I breathe  
You're a fucking disease  
Blame  
You blame everything on me  
I'm not innocent, it's true  
But the real problem is you  
Blind  
Your pussy blinded me  
I was too fucked up to see  
That you're not good for me  
Done  
I'm done with you, shithead  
This song is for you  
You're never coming back, bitch

Bitch  
You're a bitch, fuck you  
Your life, your lies  
You're sick, I dump you  
Bitch  
You're a bitch, fuck you  
Your life, your lies  
You're sick, I dump you  
Bitch  
You're a bitch, fuck you  
Your life, your lies  
You're sick, I dump you  
Bitch  
You're a bitch, fuck you

Your life, your lies  
You're sick, I dump you
