

# Die

Ektomorf

Right front on me  
Before my eyes  
Inside in Me  
It burned in my brain  
I can't forget  
I can't forgive

I can't believe all the shit you have done  
Blamed it on me like you're the innocent one  
Lies from the left  
Lies from the right  
It never stops  
You just keep lying  
Ohhhh  
You fucker

Fuck what you were  
What you now  
What you will be  
Fuck what you think about me  
Fuck all your lies  
Fuck your sick world you live in  
You're digging your own grave  
I'm done with you, die

I was naive  
I was so blind  
I lost myself  
I got fucking sick  
I could not breathe  
I could not live

I gave up myself for your misery  
You motherfucker, you betrayed me  
You never change  
You will never change  
I'm done  
You're dead to me

Fuck what you were  
What you now  
What you will be  
Fuck what you think about me  
Fuck all your lies  
Fuck your sick world you live in  
You're digging your own grave  
I'm done with you, die

Yeah  
Die  
Die

No you never  
You never felt how I felt  
No you never  
You never felt how I felt  
No you never

You never felt how I felt  
No you never  
You never felt how I felt

No you never did

No more love  
Nothing left  
You killed it all  
No more love  
Nothing left  
You killed it all  
No more love  
Nothing left  
You killed it all  
Inside in me

Fuck what you were  
What you now  
What you will be  
Fuck what you think about me  
Fuck all your lies  
Fuck your sick world you live in  
You're digging your own grave  
I'm done with you, die

Fuck what you were  
What you now  
What you will be  
Fuck what you think about me  
Fuck all your lies  
Fuck your sick world you live in  
You're digging your own grave  
I'm done with you, die

You motherfucker  
I'm done with you, die
