

I remember the first day I saw you  
Girl, you stole my heart that day  
And I remember that day I whispered  
I whispered in your ear that you are an Angel  
There was a storm  
A wild summer storm  
And you were standing there alone  
I brought a drink you were so sweet  
I never forget that day  
It was fate

I remember the first kiss we had  
The sweet taste of your cherry lips  
And I remember your shiny brown eyes  
We watched the stars and you were crying  
I had you and you had me  
There was nothing to miss  
We chose a star we called it love star  
I never forget that day  
It was fate
