

For the Last Time

Ektomorf

This is the final state here
There`s no real feeling just custom
The hell inside destroys everything
The falsehood

No feeling hurts anymore
You can`t see anything in my eyes
I even lie to myself
Everything is f*cking shit

There`s
No understanding
No patience
No desire
No love
There`s no word that could save me
For the last time

The burning fire is frozen now

Hatred and contempt in my heart
Regret and escape in my soul
That`s what I am
Take me down so I feel
How cruel I am inside

I know that I`m a cad
And that I won`t change
No understanding
No patience
No desire
No love
There`s no word that could save me
For the last time

No understanding
No patience
No desire
No love
