

For You

Ektomorf

Because I can tell you
That you`re the light in the night
You are the beginning
You are the end
You are the question
You are the answer
You are the good
You are the bad
And I fear that I can`t find you
You are my blood
You are my soul
You are the one I`ve been searching for
You are the pain
You are the pleasure
I don`t want you to hate me

Let me feel it
Tear me apart
Let me feel it
Tear me apart

Because I can tell you
That you`re the light in the night

You are the trust
You are the doubt
You are the anger
And you are the good will
You are the ice
You are the fire
You are my dream
And you are the awaking
You are the storm
You are the shelter
You are the angel
You are the devil
And you are the storm that`s raving me

Let me feel it
Tear me apart
Let me feel it
You need me
I fear
I fear
I fear you
I fear you
I fear you
I fear myself
