

Never Be the Same Again

Ektomorf

This pain is driving me insane
I lost the sense of reality
I got blind, I can't find my way
No, I'll never be the same again

This pain is driving me insane
I lost the sense of reality
I got blind, I can't find my way
No, I'll never be the same again

All alone in my life
That's where I always end up
I can't feel love no more
Too far gone, I am lost
The better me is dead
From hate the other one was born

This pain is driving me insane
I lost the sense of reality
I got blind, I can't find my way
No, I'll never be the same again

I don't care anymore
If I live or die
Fuck this world and fuck you all
The sorrow in my heart
Some feel I don't exist
I keep falling, falling away

I lost my way a long time ago
No one can make me stay, I just want to go

My life was always shit
I let them in and I regret
I'm heartless but it's not my fault
There was a better me but he's got destroyed
He's got destroyed

This pain is driving me insane
I lost the sense of reality
I got blind, I can't find my way
No, I'll never be the same again

This pain is driving me insane
I lost the sense of reality
I got blind, I can't find my way
No, I'll never be the same again
I'll never be the same again
No
