

# Pure Hate

Ektomorf

Ah, fuck  
Is this- oh, man  
This is really what you, and how you wanna do it?  
And you, you think that you can do this to anyone?  
Is this what you really think?  
Well, fuck you

You  
The scars you made  
A disease that spreads through  
Your face  
A portrait of shame  
I don't wanna see you  
No, I won't pretend  
I give it all straight to your face  
Look at me, are you ready?  
Can you face me?  
Fuck you

I hate everything about you  
I hate everything about you  
I hate everything about you  
I hate everything about you

Disgrace  
Shameless shit  
Why do you even exist?  
I gave my trust to you  
You told me there is no risk  
You threw away a life  
Fuck you, how can you sleep at night?  
You're a cancer, karma is a hunter  
You will know it  
Suffer

I hate everything about you  
I hate everything about you  
I hate everything about you  
I hate everything about you

I hate everything about you  
I hate everything about you  
I hate everything about you  
I hate everything about you

I can't find the way to forgive  
What you did to me, it's suicidal  
It's suicidal  
I can't find the way to forgive  
What you did to me, it's suicidal  
It's suicidal  
I can't find the way to forgive  
What you did to me, it's suicidal  
It's suicidal  
I can't find the way to forgive  
What you did to me, it's suicidal  
It's suicidal  
I can't find the way to forgive  
What you did to me, it's suicidal  
It's suicidal
