

# Stigmatized

Ektomorf

This is my darkest hour now  
I never did this before  
But I... I face all my demons here  
Will I make it through the night?

I can feel the pain, it grows  
And I lose the will to fight  
No one cares; I'm so alone  
Will make it through the night?

Give me more pain, I take it  
Give me more hate, I make it  
I'm stigmatized  
I'm stigmatized

I just want to fall asleep  
And dream that everything is all right  
But my thoughts keep me awake  
Will make it through the night?

I don't wanna feel no more  
This is time to say goodbye  
I should leave this all behind  
Will I make it through the night?

Give me more pain, I take it  
Give me more hate, I make it  
I'm stigmatized  
I'm stigmatized

I'm your pain  
You are my faults  
I'm your regret  
You are my god  
I'm your tears  
You are my fears  
I'm your eyes  
You are my lies

You always blame me, start to hate me  
You can't stop fucking around  
Why don't you talk to me  
And tell me what you feel inside?  
I lost my trust in you  
Because you lied to me  
What do you want from me?  
What do you want from me?

I'm stigmatized  
I'm stigmatized  
I'm stigmatized  
I'm stigmatized

Everything's so fucked up now  
And the mess you left behind  
But I will make you hurt  
And I'll make it through the night
